ABOUT TRELOAR ROSES

Treloar Roses was founded by the late Ted Treloar during the early 1960s. He started selling rose plants from his nursery located at the back of his fruit and vegetable shop. His dedication to the industry and passion for roses saw the business grow into Australia's leading rose nursery. Today, the business is operated by Trent Treloar, grandson of Ted Treloar and Gary Matuschka.

Treloar Roses are one of Australia's primary rose introducers, presenting the best new releases from rose breeders worldwide. Visit www.treloarroses.com.au for further information.
