

## MEDIA RELEASE

Thursday 17th December 2020

### FRESH NEW ROSES TO LOOK FORWARD TO IN 2021!

**Treloar Roses – Bolwarra Victoria**, Australia's largest rose production nursery are releasing a fabulous range of new release rose varieties for 2021. They have ten new roses in the line-up which include a great assortment of colour, style and fragrance to suit all types of gardens.

All but two of these brilliant varieties are bred by world renown rose breeders, Kordes Roses. Treloar Roses are proud to have been the Australian agent for Kordes for over 25 years, releasing some of the best roses the world has ever seen onto the Australian market during that time.

'We're really looking forward to releasing our new releases for 2021. It's hard to choose a favourite this year with so many superb varieties with amazing colour and fragrance' said Gary Matuschka, Treloar Roses Director.

For those who love fragrant roses, **Delightful Parfuma** – so aptly named with superbly fragrant blooms and gorgeous magenta pink blooms is not to be missed. The fragrant notes of geranium, rose and apple encapsulate the old-world style flower making this one of their much-anticipated feature releases.

Their other feature release is **Heaven On Earth**, that has gorgeous big, beautiful blooms in varying shades of apricot and pink. To top it off it has a fresh, alluring perfume with a very pretty, relaxed look about the bush as it sits gracefully in the garden.

'The loose, tranquil look of Heaven On Earth is simply beautiful' said Gary. 'Its big soft apricot and pink blooms with pleasing fragrance entice you to stop and admire its beauty.'

There's a few award-winning varieties amongst them also with the outstanding new apricot salmon miniature named **Mandarin**, being awarded Silver Medal, Best Mini and the Most Pest & Disease Tolerant award; **Pink Ayoba**, a bright pink floribunda - awarded Silver Medal; and **Skylight**, a lovely sunny yellow Hybrid Tea that also picked up a Silver Medal, along with the Best Shrub award.

**Cherry Bomb** and **Afrikaans** are the bright ones of the bunch this year with punchy colours that will stand out in the garden and sing their stance loud and proud.

**Lioness** which has the most beautiful buttery lemon-coloured full blooms will stand tall and is absolutely perfect for anyone wanting a large colourful hedge to brighten up the yard or cover that ugly fence.

Last, but certainly not least they are also including two new varieties, bred by the ever-popular David Austin Roses - **Roald Dahl** and **Bathsheba**. Roald Dahl was awarded a Silver Medal and the Irwin Award in Australia for its superb health and growth. Bathsheba is in the similar colour spectrum with its apricot hues, although it is quite different in growth with its ability to climb to a spread of three meters.

'It's great to hear from so many people with a renewed interest in their gardens this year and now we have some super exciting varieties to keep them going into 2021 and beyond' said Gary.

#### ABOUT TRELOAR ROSES

Treloar Roses is Australia's largest rose production nursery, with over one million rose plants in various stages of production. For over 55 years, we have been sending rose plants Australia wide during the Winter bare root season. Each year we introduce to Australia the world's finest new varieties, from the world's best rose breeders. Many of these new and healthier roses can be seen in our two-acre display garden at our farm, located in Portland, on the beautiful south west Victorian coast.

#### SUPPLY

Roses can be ordered online from January 2021 by visiting [treloarroses.com.au](http://treloarroses.com.au) or by phoning Treloar Roses on 1300 044 852. Roses are supplied as bare root plants and shipped Australia wide from late May to late August.
